Scope of use

- 1. Suitable for sealing glass, glazed ceramics, porcelains, vitreous enamels & some non-porous substrates.
- 2. Traditional glazing applications.
- 3. Some plastics & other building products.
- 4. The actual performance will depend on the actual base of material and using method.
- 5. Please refer to the product technical data sheet for details.

Important notes

- 1. Use restrictions: total water immersion, such as the aquarium, swimming pool, need to use paint or architectural sealant application; in structural glazing; in contact with bituminous-based material.
- 2. Avoid contact with skin and eyes, keep out of children's reach; in case of contact with skin or eyes, rinse clean with water immediately, please seek medical assistance if irritation persists.
- 3. Fully cured sealant is not hazardous.
- 4. Used in the well-ventilated environment.
- 5. Store in a dry and shade place, temperature below 27° C.

Application

- 1. Keep surface clean, dry and free of dust or grease.
- 2. Cover the surfaces with masking tape if necessary.
- 3. Rip off the tape before sealant cured.
- 4. Uncured sealant can be cleaned up by the cloth and solvent.
- 5. Use back-filling material to avoid three-sided adhesion.
- 6. The compatibility testing before using is required.
